

The CCMGA 2022 Spring Plant Sale

Saturday, April 16th ~ 9am until 1:30pm or SOLD OUT

In the Show Barn at Myers Park & Event Center ~ 7117 County Road 166, McKinney, TX 75069

Shrubs	Description	Size	Water	Light	Attracts Pollinators
Botanical Name Bears Breeches <i>Acanthus Mollis</i>	Clump-forming perennial grown for its attractive foliage and architecturally bold flower spikes. Creamy white, sometimes pink flowers on substantial flower spikes above the mounded, glossy, dark-green leaves.	3-5' tall x 2-2' wide	Medium	Part Shade to Shade	
Butterfly Bush 'Nanho Purple' <i>Buddleia davidii</i>	Butterfly Bush cultivar with densely clustered lavender-purple flowers on a compact deciduous plant. Flowers are fragrant with willowy gray-green foliage. Pollinator attractive!	3.5' tall and wide	Medium	Full to Part Sun	Bees, Butterflies
Butterfly Bush 'Buzz Hot Raspberry' <i>Buddleia davidii</i>	Buzz Hot Raspberry is a compact plant loved by bees and butterflies. Up to 8' panicles of hot pink flowers cover the plant summer to fall. Easy to grow, problem free and a long flowering season makes this an excellent selection.	4' tall and wide	Medium	Full to Part Sun	Bees, Butterflies
Butterfly Bush 'Lo & Behold Ruby Chip' <i>Buddleia davidii</i> 'Lo & Behold Ruby Chip'	Compact size and dozens of magenta-ruby flower spikes. Fragrant and long-blooming. Sun-loving, heat tolerant and continuous bloom or reblooming.	3'tall and wide	Medium	Full to Part Sun	Bees, Butterflies
Butterfly Bush 'Royal Red' <i>Buddleia davidii</i> 'Royal Red'	Spectacular summer color from clusters of rich, purple-red flowers. A good background or accent plant for a perennial border or cutting garden. Fragrant blooms. Deciduous.	6-8'tall x 4-6'wide	Medium	Full to Part Sun	Bees, Butterflies
Buttonbush 'Sugar Shack' <i>Cephalanthus o.</i> 'Sugar Shack'	Low maintenance, easily grown, deciduous shrub; leaves appear in late spring. Tiny tubular fragrant white flowers with a distinctive pincushion-like appearance. Good for native plant gardens, low spots, shrub borders, or to naturalize in woodland areas.	5-12' t x 4-6'wide	Medium	Full Sun to Part Shade	Butterflies
Common Tree Senna <i>Cassia corymbosa</i>	Low maintenance plant with masses of butter-yellow blooms in spring and summer. Can be trained as small tree or used as free-form shrub. Heat and drought tolerant.	6-8' tall x 4-6'wide	Low to Medium	Full Sun to Part Sun	Bees, Butterflies, Hummingbirds
Coral Bean <i>Erythrina x bilwilli</i>	Drought tolerant when established, this Texas native sports beautiful red blooms and sharp thorns. Plants thrive with little irrigation and poor soil. May die to ground in harsh winter, but will re-emerge in spring.	8' tall x 5' wide	Low to Medium	Full Sun to Part Shade	Bees, Butterflies, Hummingbirds

The CCMGA 2022 Spring Plant List *(Subject to grower availability.)*

Shrubs Botanical Name	Description	Size	Water	Light	Attracts Pollinators
Dwarf Barbados Cherry <i>Malpighia glabra</i>	Barbados Cherry develops into a thick, rounded canopy of fairly delicate foliage with small pink flowers appearing periodically from April to October and are followed about one month later by bright red, tart-tasting, 1-inch fruits which are high in vitamin C. Maintain a good layer of mulch after planting.	3-6'tall x 3-4'wide	Medium	Full Sun to Part Sun	Bees, Butterflies
Fatsia Japanese Aralia <i>Fatsia japonica, Aralia japonica</i>	Large, deep green tropical-looking leaves. Excellent choice for shaded locations and can be used as container plant, or as informal hedge or indoors or out.	6'-10' tall x wide	Medium	Morning Sun to Light shade	
Germander, Wall <i>Teucrium chamaedrys</i>	Rich rosy-lavender flowers contrast against dense, deep green aromatic leaves, this easy-care sub-shrub is perfect for waterwise gardens and blooms summer-long. Makes a wonderful herb, knot garden plant or low clipped hedge or carefree informal filler around larger shrubs.	12-18" t x 24" wide	Low	Full Sun to Part sun	Bees, Butterflies, Hummingbirds, Birds
Hibiscus 'Tropical Red' <i>Hibiscus Tropical</i>	For containers, gardens, decks, patios and landscapes. Large blooms attract butterflies and bees; but deer and rabbit resistant! Shiny green leaves offset the beautiful blooms. Not generally winter hardy in this area.	24-30" tall x 18-24" wide	Medium	Full Sun to Part Sun	Bees, Butterflies, Hummingbirds, Birds
Hibiscus 'Disco Belle' <i>Hibiscus moscheutos 'Disco Belle White'</i>	Deciduous shrub. Large white flowers with ruby red center. Compact perennial with flowers up to 9 inches across. Can be grown in large pots or containers.	2-4' tall x 2' wide	Medium	Full Sun	Butterflies, Bees
Hibiscus 'Luna Red' <i>Hibiscus moscheutos 'Luna Red'</i>	'Luna Red' (Hardy Hibiscus) is a compact and well-branched shrub noted for its huge, rich deep burgundy red flowers, 6-8" across. Blooms continuously from mid to late summer.	2-3' tall x 2' wide	Medium	Full Sun	Butterflies Bees
Hibiscus 'Luna Pink Swirl' <i>Hibiscus moscheutos 'Luna Pink Swirl'</i>	'Luna Pink Swirl' (Hardy Hibiscus) is a compact and well-branched shrub noted for its huge, white flowers tinged with pink with a red center. Blooms continuously from mid to late summer. Herbaceous perennial.	2-3' tall x 2' wide	Medium	Full Sun	Butterflies, Bees
Spirea 'Double Reeves' <i>Spirea cantoniensis 'Lanceolata Double Reeves'</i>	Large, dense, white flower clusters are held upright above the dark green oak leaf-shaped foliage. Relatively easy to grow; periodically remove old canes immediately after flowering; never shear or cut back of the plant; remove canes at ground level only. Heat and drought tolerant.	5-8'ft tall x 8-10'wide	Medium	Full Sun to Part Sun	Butterflies
Texas Sage 'Green Cloud' <i>Leucophyllum frutescens 'Green Cloud'</i>	'Green Cloud' selected by Texas Agricultural Experimental Station. Will usually flower after rain; leaves are more green than other sages with silvery gray leaves and violet to purple flowers. Heat and drought tolerant.	5-8' tall x 4-6'wide	Low to Medium	Sun	Bees, Butterflies

The CCMGA 2022 Spring Plant List *(Subject to grower availability.)*

Shrubs	Description	Size	Water	Light	Attracts Pollinators
Botanical Name					
Texas Star Hibiscus <i>Hibiscus coccineus</i>	Native perennial with showy 3 to 4" bright red, star shaped blooms that attract a variety of pollinators. Blooms June to October. Thrives in moist or wet areas including ponds and bogs. Dies back each year.	4-7' tall x 2-3' wide	Medium	Full Sun	Bees, Butterflies, Hummingbirds, Birds
Turk's Cap – 'White Lightning' white <i>Malvaviscus arboreus 'White Lightning'</i>	Texas Super Star, rapidly growing upright plant with velvety leaves and white turban style flowers May through November. Dies back in winter. Drought Tolerant once established.	4' tall x 3' wide	Medium	Full Sun to Part Shade	Butterflies, Hummingbirds
Turk's Cap-'Pam Puryear' pink <i>Malvaviscus arboreus 'Pam Puryear'</i>	Texas Super Star, rapidly growing upright plant with velvety leaves and light pink turban style flowers thru May - November. Dies back in winter. Drought Tolerant once established.	4' tall x 3' wide	Medium	Full Sun to Part Shade	Butterflies, Hummingbirds
Turk's Cap 'Red' <i>Malaviscus 'Red'</i>	Texas Super Star, rapidly growing upright plant with velvety leaves and bright red turban style flowers May through November. Dies back in winter. Drought Tolerant once established.	4' tall x 3' wide	Medium	Full sun to Part Shade	Butterflies, Hummingbirds
Viburnum 'Spring Bouquet' <i>Viburnum tinus 'Compactum'</i>	A dense, evergreen shrub with a mass of blooms from late spring until autumn. Blooms are tight clusters of pink buds that open to lightly fragrant white flowers. Great for natural screens and hedges.	4-6' tall and wide	Medium	Full Sun	Bees, Butterflies, Hummingbirds
Yucca 'Red' <i>Hesperaloe parviflora</i>	Red Yucca (which is not actually a yucca) is, however, a stalwart in Texas landscapes. Dark green rosette of long, thin leaves rises fountain-like. Drought tolerant.	2-3' tall and wide	Low	Full Sun	Hummingbirds
Yucca 'Color Guard' <i>Yucca filamentosa 'Color Guard'</i>	Upright foliage adds architectural interest and the colorful striped foliage creamy-white on dark green adds even more! Use as an accent, in containers, mass plantings and in xeriscape. Showy spires of fragrant snow-white blooms in summer. Top 100 plant for N. Texas	3-6 tall x 2-3' wide	Low	Full Sun	Bees, Butterflies
Ornamental Perennials	Description	Size	Water	Light	Attracts Pollinators
Botanical Name					
African Bulbine 'Orange' <i>Bulbine frutescens 'Orange'</i>	Succulent foliage with star-shaped orange flowers in summer months. Prefers well drained soil but is tolerant of poor, dry soil. Deadhead to encourage more flowering	4' tall and wide	Low	Full Sun to Part Sun	
Agapanthus 'Jonie Blue' <i>Agapanthus africanus 'Jonie Blue'</i>	Thin, linear, dark green leaves have rounded clusters of blue, funnel-shaped flowers atop stiff, upright, leafless stalks typically rising 18-24" above the basal mound. Appreciates mulch in the hottest part of summer.	3' tall x 8'wide	Medium	Full Sun to Part Sun	Bees, Butterflies

The CCMGA 2022 Spring Plant List *(Subject to grower availability.)*

Ornamental Perennials	Description	Size	Water	Light	Attracts Pollinators
Botanical Name					
Agastache 'Blue Fortune' <i>Hyssop 'Blue Fortune'</i>	Herbaceous perennial. Tiny, lavender blue tube-shaped flowers tightly packed on terminal spikes. Good cut flower for along walkways or patios.	2-3' tall x 1-2' wide	Medium	Full Sun to Part Shade	Bees, Butterflies
Agatasche 'Kudos Coral' <i>Hyssop 'Kudos Coral'</i>	Very short, compact, and hardy, this is a small Hummingbird Mint, which forms a low tight mound bearing airy spikes of sweet honey-mint scented, warm, coral plumes from summer to early fall.	17-20" tall and wide	Medium	Full Sun	Bees, Butterflies
Agastache 'Tutti Fruitti' <i>Hyssop 'Tutti Fruitti'</i>	Easily grown in average, medium moisture, well-drained soils in full sun, but tolerant of some light shade. Produces tiny, tube-shaped, raspberry flowers on 6-10" terminal spikes on purple stems. Leaves are serrated and lemon-scented - sometimes lasting till frost	18-24" tall x 12-18" wide	Medium	Full Sun	Bees, Butterflies
Ajuga 'Black Scallop' <i>Ajuga reptans 'Black Scallop'</i>	Ornamental ground cover with variegated leaves and blue flower spikes in spring. Quickly spreads with underground roots to become living mulch.	4-6" tall x 9-16" wide	Medium	Part Shade to Shade	Bees, Butterflies
Artemisia; Powis Castle' <i>Artemisia arborescens</i>	Silvery green leaves on this compact, woody shrub. Insignificant flowers summer to fall. Prized for its foliage. Great border or bedding plant. Drought tolerant.	3'tall and wide	Low to Medium	Full Sun	
Artemisia 'Silver Mound' <i>Artemisia arborescens</i>	Fine silvery-green needle-like leaves that create a silky mound of aromatic soft foliage. Ideal in a landscape as a low-growing spacer, framing, ground cover, or edging plant. Drought tolerant and non-invasive.	3'tall and wide	Low to Medium	Full Sun	
Aster 'Woods Pink' <i>Aster novi-belgii 'Wood's Pink'</i>	Compact, clump-forming aster with daisy-like, semi-double asters (to 1/2" diameter) with pink rays and yellow centers. Blooms profusely from late summer to early fall. Glossy dark green leaves.	12-18" tall and wide	Medium	Full Sun	Bees, Butterflies,
Bee Balm 'Peter's Purple' <i>Monarda x Peter's Purple</i>	This fragrant, carefree plant provides an abundant amount of nectar for a variety of pollinators from spring to late summer. Vibrant purple feathery blooms. Drought tolerant, heat loving and deters rabbits and deer.	4' tall x 2' wide	Medium	Full Sun	Bees, Butterflies, hummingbirds
Bee Balm 'Jacob Cline' <i>Monarda didyma 'Jacob Cline'</i>	Unusual looking feathery red flowers atop erect stems. Blooms summer through fall. This fragrant, carefree plant attracts a variety of pollinators but deters rabbits and deer.	4-5' tall x 3' wide	Medium	Full Sun	Bees, Butterflies
Blanketflower <i>Gaillardia aristata</i>	Also known as Indian Blanket or just Blanketflower. Colorful daisy-like flowers above attractive gray-green foliage; excellent as cut flowers. Remove faded flowers for better bloom.	1-3' tall x 1-2' wide	Low to Medium	Full Sun	Bees, Butterflies, Hummingbirds

The CCMGA 2022 Spring Plant List *(Subject to grower availability.)*

Ornamental Perennials	Description	Size	Water	Light	Attracts Pollinators
Botanical Name					
Butterfly Weed <i>Asclepias tuberosa</i>	Host plant for the Monarch butterfly! Clumps of small bright orange flowers top stems of lance shaped leaves. Nectar rich for a variety of pollinators. Reseeds easily.	3' tall x 1' wide	Low to Medium	Full Sun	Bees, Butterflies, Hummingbirds
Canna 'Red Flame' <i>Canna x generalis 'Cannova Red Flame'</i>	Herbaceous Perennial. Great for landscapes and container plantings in full sun. Striking foliage contrasts with the flowers, making them a great option for mixed combinations or in-ground plantings.	32" tall x 30" wide	Medium	Full Sun	
Caryopteris 'Dark Knight' <i>Caryopteris x clandonensis 'Dark Knight'</i>	Commonly called bluebeard, blue spirea or blue mist, is a low-mounded, deciduous shrub that is valued for its aromatic foliage and late summer flowers. Foliage is aromatic when brushed with a hand. A profuse, shrub-covering bloom of fragrant, deep bluish-purple flowers from late summer into fall.	2' tall and wide	Medium	Full Sun	Bees, Butterflies, Birds, Hummingbirds
Catmint 'Walker's Low' <i>Nepeta x faassenii</i>	Hardy, good for edging or ground cover. Purple flowers from May to October attract pollinators. Minty fragrant foliage adds to the appeal.	3' tall x 3' wide	Medium	Full Sun	Bees, Butterflies, Hummingbirds
Cestrum Orange Zest <i>Cestrum aurantium 'Orange Zest'</i>	Fast growing shrub is filled with sweet scented orange blossoms from early spring through frost. Thrives in heat. Affected by moderate frost but will regrow vigorously.	6' tall x 6' wide	Medium	Full Sun	Bees, Butterflies
Columbine 'Texas Gold' <i>Aquilegia chrysantha 'Hinckleyana'</i>	Cool season perennial with yellow flowers. Native. Excellent for dry woodland gardens or under the canopy of a deciduous tree. Rounded growth habit. Blooms March to May.	2' tall x 2' wide	Medium	Part Sun to Part Shade	Bees, Butterflies, Hummingbirds
Columbine 'Texas Red' <i>Aquilegia Formosa</i>	Cool season perennial with red flowers blooming March to May. Texas Superstar native. Excellent in dry woodland garden or under the canopy of a tree.	2'tall x 2' wide	Medium	Part Sun to Part Shad	Bees, Butterflies
Coreopsis 'Uptick Gold and Bronze' <i>Coreopsis x 'baluptgonz Uptick Gold and Bronze'</i>	Gold with dark bronze eye makes a striking color combination. Tidy mounding habit, large Flowers. Drought tolerant and disease resistant.	12" tall x 14" wide	Low to Medium	Sun	Bees, Butterflies
Coreopsis 'Early Sunrise' <i>Coreopsis grandiflora 'Early Sunrise'</i>	Compact plant which features solitary, yellow, daisy-like, semi-double flowers (to 2" diameter) with yellow rays and darker yellow center disks atop slender, erect stems rising to 18" tall. Flowers typically bloom from late spring to late summer/early fall.	18" tall and wide	Low to Medium	Sun	Bees, Butterflies
Coreopsis 'Lil Bang Red Elf' <i>Coreopsis 'Lil Bang Red Elf'</i>	One of the smallest, compact Coreopsis reaching heights of 9-12". Has large blooms and it produces a unique red flower with white tips. Plant as a border or in a container and enjoy blooms from summer to early fall.	9-15" tall x 12-18" wide	Medium	Sun	Bees, Butterflies

The CCMGA 2022 Spring Plant List *(Subject to grower availability.)*

Ornamental Perennials	Description	Size	Water	Light	Attracts Pollinators
Botanical Name Crinum 'Ellen Bosanquet' <i>Crinum 'Ellen Bosanquet'</i>	Majestic plants with bold, fragrant, lily-like flowers. Narrow pleated, glossy green foliage. An old, but very popular hybrid, the bell-shaped, wine-red flowers have a spicy fragrance.	12-24" tall x 24-36" wide	Medium	Full Sun to Part Shade	
Daisy: Blackfoot <i>Melampodium leucanthum</i>	Texas native. Must have dry feet or will rot; evergreen. White flowers are non-stop from March to November.	1' tall x 2' wide	Low	Full Sun	Bees, Butterflies
Daisy: Copper Canyon <i>Tagetes lemmonii</i>	Member of the Aster family. Fragrant foliage deters rabbits/deer. Covered in yellow blooms fall to frost.	4' tall x 2' wide	Medium	Full Sun	Bees, Butterflies
Dianthus 'Firewitch' <i>Dianthus gratianopolitanus</i>	Fragrant pink flowers; low growing, heat tolerant and minimal maintenance. Good as a border or rock garden addition.	6" tall x 12" wide	Medium	Full Sun or Part Shade	
Flame Acanthus <i>Anisacanthus wrightii</i>	Deciduous shrub. Light green leaves and brilliant orange, tubular flowers favored by hummingbirds. Tolerates poor soil.	4' tall x 5' wide	Medium	Full Sun	Bees, Butterflies, Hummingbirds
Echinacea 'Green Twister' <i>Echinacea purpurea 'Green Twister'</i>	A very unusual Coneflower variety, Twister' is noted for its large flowers, 4 in. across, with horizontally arranged lime-green petals which transition to pale lilac-pink and carmine near their central cone. Extremely showy and vigorous, excellent choice for cut or dried flower or beds, borders. Heat and drought tolerant	3-4' tall x 1-2' wide	Low to Medium	Full Sun	Bees, Butterflies
Echinacea 'White Swan' <i>Echinacea purpurea 'White Swan'</i>	White Swan' is an easy to grow perennial flower that produces strikingly large, fragrant, and bright white daisies like flowers. The flowers rise on sturdy stems above neat clumps of foliage from early summer into early autumn.	2-3 tall x 1-2' wide	Medium	Full Sun	Bees, Butterflies
Echinacea 'Bright Star' <i>Echinacea purpurea 'Bright Star'</i>	Beautiful lightly-scented rose daisy flowers with coppery bronze eyes from mid-summer to mid-fall. Most effective in groupings. Excellent as cut flower.	18" tall x 36" wide	Medium	Full Sun	Bees, Butterflies
Euphorbia Glitz <i>Euphorbia graminea 'Glitz'</i>	Great as a filler for baskets or mixed containers with masses and masses of tiny white blooms held at the tip of finely cut, airy, pastel green stems. Heat, drought, and shade tolerant. Low maintenance with a mounding habit.	10-12" tall x 12-18" wide	Medium	Full Sun to Part Shade	
Gaura 'Belleza Dark Pink' <i>Gaura lindheimeri 'Dark Pink'</i>	Flower buds and pink flowers appear on wand-like panicles above the foliage. Good drainage is essential Tolerates heat, humidity, and some drought.	12-18" tall x 16-20" wide	Medium	Full Sun to Part Shade	Bees, Butterflies
Gaura 'Dark Pink Dwarf' <i>Gaura lindheimeri 'Dark Pink Dwarf'</i>	Compact, perennial with narrow lance-shaped dark green leaves and red stems bearing wand-like panicles of deep pink flowers from summer into autumn.	10" tall and wide	Low to Medium	Full Sun to Part Sun	Bees, Butterflies

The CCMGA 2022 Spring Plant List *(Subject to grower availability.)*

Ornamental Perennials	Description	Size	Water	Light	Attracts Pollinators
Botanical Name Gregg's Mist Flower <i>Conoclinium coelestinum</i>	Excellent butterfly attractant! Triangular shaped leaves topped with clusters of purple/blue flower puffs. Can spread quickly.	Up to 3' tall and wide	Medium	Full Sun to Part Shade	Butterflies
Fragrant White Mistflower <i>Eupatorium havanensis</i>	Native, rounded shrub has multi-branching stems that rise above the base. Showy, fragrant, pinkish-white blooms appear April through December. Also referred to as Boneset and Havana Snakeroot. Fragrant.	3-6' tall x 3' wide	Low	Full Sun	Birds, Butterflies, Moths
Heuchera (Coral Bells)	<i>Varieties include Palace Purple, Ginger Ale, Ruby Bells.</i> Popular shade garden perennial grown primarily for its beautiful foliage with colorful blooms. Foliage and bloom color varies depending on the variety. Blooms March-November.	1'6" tall x 1' to 1'6" wide	Medium	Part Sun, Part Shade, Full Shade	Butterflies
Jerusalem Sage <i>Phlomis russeliana</i>	Delightful yellow flowers even in drought conditions and very poor soil. It is an excellent choice for arid climates and hard to plant problem sites. Silvery gray, velvety foliage.	4' tall x 4' wide	Low to Medium	Full Sun	Bees, Butterflies
Lambs Ears <i>Stachys byzantina</i>	Silver green leaves are hairy and soft to the touch. Grown for beautiful, textural foliage. Deadhead if it blooms, but do not prune in winter.	12" wide x 6-8" tall			
Lantana 'Dallas Red' <i>Lantana camara "Dallas Red"</i>	Texas Superstar Perennial – smaller variety of Lantana with a wealth of flowers. Reduced fruit set promotes prolific blooming spring till frost. Heat loving!!	16" tall and wide	Low	Full Sun	Bees, Butterflies Birds, Hummingbirds
Lantana New Gold <i>Lantana x hybrid 'New Gold'</i>	Texas Superstar Perennial – smaller variety of Lantana with a wealth of golden yellow flowers. Reduced fruit set promotes prolific blooming spring till frost. Heat loving!!	2' tall x 4' wide	Low	Full Sun	Bees, Butterflies Birds, Hummingbirds
Lantana 'Texas' <i>Lantana urticoides "Texas"</i>	Thrives in the full summer sun and heat, requiring little water once established, and can be used as a shrubby ground cover in dry, poor soil. Entire shrub will be covered with multi-colored flowers through the worst of the triple-digit heat.	2-6' tall and wide	Low	Full Sun	Bees, Butterflies
Leopard Plant <i>Farfugium japonicum 'Gigantea'</i>	Large, rounded, shiny green leaves on stalks up to 3-4' tall; daisy-like yellow blooms on tall, branched stems. Thick leaves can reach up to 18" across and provide an interesting display when massed under trees, in a shady border or patio container	3-4' tall and wide	Consistently Moist, well drained	Full or partial shade	

The CCMGA 2022 Spring Plant List *(Subject to grower availability.)*

Ornamental Perennials	Description	Size	Water	Light	Attracts Pollinators
Botanical Name					
Mexican Bush Sage <i>Salvia leucantha</i>	Drought-hardy perennial with soft green foliage with a slight silvery tint. In fall, it produces beautiful cascades of velvety purple flowers that attract butterflies.	Up to 4' tall x 3' wide	Low to Medium	Full Sun to Part Shade	Butterflies, Hummingbirds
Mexican Petunia <i>Ruellia brittoniana</i>	Dwarf size in pink, purple and white makes this easy-care plant a must for borders or small garden spaces. Large showy abundance of flowers with dark green foliage. Sometimes called Mexican or Texas petunia Works well in borders or small garden spaces.	6-12" tall x 12" wide	Low to Medium	Full to Part Sun	Bees, Butterflies
Mexican Petunia 'Purple Showers' <i>Ruellia simplex</i>	The "Tall" variety of Mexican Petunia is showy with gorgeous tubular, petunia-like purple flowers. Easy to grow and thrives in both wet or dry soil. Freely spreads and can be mildly invasive. Great for containers.	3' to 4' tall x 2' to 3' wide	Low to Medium to Wet	Full to Part Sun	Butterflies, Hummingbirds
Mexican Mint Marigold <i>Tagetes lucida</i>	Compact perennial that looks somewhat similar to marigolds. Drought and heat tolerant and easy to grow. Dark green leaves and golden yellow flowers with a licorice fragrance.	2' tall x 1' wide	Low to Medium	Full Sun	Bees, Butterflies
Penstemon – 'Rock Penstemon' <i>Penstemon baccharifolius</i>	Does best in low water environment. Its cherry red blooms appear in spring/summer; attracts hummingbirds and other pollinators. Also called Beardtongue	18" tall and wide	Low	Full Sun	Bees, Butterflies, Hummingbirds
Penstemon 'Brazos' <i>Penstemon tenuis</i>	The purple blooms of this native plant make a fabulous cut flower. Sometimes known as Beardtongue. Great for beds or borders.	18-24" tall x 16-20" wide	Low	Full Sun	Bees, Butterflies
Penstemon 'Dark Towers' <i>Penstemon digitalis</i>	Pink blooms atop dark red-wine foliage attracts pollinators. Tolerates high heat, humidity, and periodic dry spells, when established. Easy to grow and perfect for a sunny, minimal care landscape.	30" tall and wide	Low	Full Sun	Bees, Butterflies, Hummingbirds
Phlox 'John Fannick' <i>Phlox paniculata 'John Fannick'</i>	A "Texas Superstar" plant. Hardy perennial, easily grown this butterfly magnet has striking lavender/pink flowers beginning in early summer and a pleasing, compact form. Fragrant.	36" tall x 30" wide	Low to Medium	Full Sun	Bees, Butterflies
Phlox 'David' <i>Phlox paniculata 'David'</i>	This butterfly magnet has fragrant , tubular flowers beginning in early summer and a pleasing, compact form Mixes well with other perennials.	24-36" tall and wide	Low to Medium	Full Sun	Bees, Butterflies
Phlox 'Emerald Blue' <i>Phlox sublate Emerald Blue"</i>	A carefree perennial that carpets even tough areas with dense evergreen foliage and thousands of blue blooms. Plant 8-12" apart in any well-drained soil.	3-6" tall x 12-18" wide	Low to Medium	Full Sun	Bees, Butterflies
Red Hot Poker – Flamenco <i>Kniphofia uvaria Flamenco</i>	Award winner. 8" flower spikes add a dramatic look for the garden and are favored by hummingbirds. Orange, yellow and bright red blooms appear in early summer.	2' to 3' tall x 3' wide	Medium	Full Sun	Hummingbirds

The CCMGA 2022 Spring Plant List *(Subject to grower availability.)*

Ornamental Perennials	Description	Size	Water	Light	Attracts Pollinators
Botanical Name					
Rock Rose <i>Pavonia tenuis</i>	Small, usually deciduous shrub, but may be semi-evergreen during a mild winter. Woody at the base with stems that peak in 1 ½" pink blooms from April to November. Drought tolerant.	3' tall and wide	Low to Medium	Full Sun to Part Shade	Butterflies, Moths, Hummingbirds
Brazilian Rock Rose <i>Pavonia braziliensis</i>	This deciduous plant has pale pink (almost white) blooms w/ magenta center. Plant along walkways and paths to soften surrounding hardscapes.	3' tall and wide	Low to Medium	Full Sun to Part Shade	Butterflies, Moths, Hummingbirds
Rosemary –Hardy <i>Rosmarinus officinalis</i>	A fine herb as well as a pretty shrub with narrow grayish needle-like foliage. Wonderful fragrance. Grows well in containers or in the landscape. Blooms April to November.	4' tall x 3' wide	Medium	Full Sun to Part Shade	Bees
Scabiosa (Pincushion Flower) 'Butterfly Blue' <i>Scabiosa columbaria</i>	"Butterfly Blue" & "Giga Silver" varieties – Pincushion-like flowers bloom over an extended season starting in late spring.	12" to 18" tall x 15" wide	Medium	Full Sun	Butterflies
Russian Sage <i>Perovskia atriplicifolia</i>	Also called Little Spire. Cut leaf silvery gray foliage. A nice contrast to the blue-lavender flowers. Leaves are aromatic when crushed. Drought tolerant.	3' wide x tall	Low to Medium	Full Sun	
Rudbekia (Black-Eyed Susan) <i>Rudbeckia hirta</i> L.	Native. Coarse, rough stemmed plant with bright yellow, 2 to 3" wide daisy-like flowers with dark centers. Drought tolerant.	1' to 3' tall x wide	Medium	Full Sun	Bees Butterflies
Salvia, Black & Blue <i>Salvia guarantica</i>	Electric blue flowers with black stems and green leaves in summer. Fragrant and heat and drought tolerant. Blooms July to frost.	3' tall and wide	Low to Medium	Full Sun	Bees Butterflies Hummingbirds
Salvia, Henry Duelberg <i>Salvia farinacea</i> 'Henry Duelberg'	Native. Texas Superstar. Long, narrow clusters of leaves topped with showy blue velvet masses of flowers. Blooms spring to frost. Shearing between bloom cycles promotes re-blooming.	3' tall and wide	Low to Medium	Full Sun	Bees Butterflies Hummingbirds
Salvia, Augusta Duelberg <i>Salvia farinacea</i> 'Augusta Duelberg'	Also called Mealycup Sage; has loads of white spikes of tubular flowers from late spring to fall on this durable, Texas tough native. Augusta Duelberg is larger growing than other salvias. Blooms May to October	3' tall x 4' wide	Medium	Full Sun to Part Sun	Bees Butterflies Hummingbirds
Salvia, Mystic Spires <i>Salvia longispicata</i> x <i>farinacea</i>	10" spikes of pure deep blue flowers on 2' to 3' stems. Easy to grow. A favorite of the Dallas Arboretum. Blooms spring to summer.	2' to 3' tall and wide	Low to Medium	Full Sun	Bees Butterflies Hummingbirds
Salvia, Indigo Spires <i>Salvia</i> x 'Indigo Spires'	Long spikes of deep indigo blue, tubular flowers bloom continuously from spring to frost on medium green foliage. A reliable performer in the landscape.	3' to 4-f tall and wide	Low to Medium	Full Sun	Bees Butterflies Hummingbirds
<i>Salvia greggii</i> (Asst. Varieties) <i>Furman's Red, Mesa Azure, Raspberry, White. Mirage Rose Bi-color</i>	Also called 'Autumn Sage' for the profusion of fall blooms. Assorted colors from which to choose; all drought tolerant and easy to grow. Blooms April through November.	14" to 18" tall x wide	Medium	Full Sun	Bees Butterflies Hummingbirds

The CCMGA 2022 Spring Plant List *(Subject to grower availability.)*

Ornamental Perennials	Description	Size	Water	Light	Attracts Pollinators
Botanical Name					
Salvia, Sierra San Antonio <i>Salvia x jamensis 'Sierra San Antonio'</i>	Hybrid plant with lovely two-toned flowers of soft yellow and reddish-orange. Leaves are bright green. A hummingbird favorite.	4' tall x 3' wide	Medium	Full Sun	Bees, Butterflies, Hummingbirds
Salvia, Pineapple Sage <i>Salvia elegans</i>	Fragrant, showy perennial with scarlet-red flowers in late summer. Bright, pineapple-scented yellow-green foliage. The crushed leaves have the aroma and taste of pineapple, used to make tea, potpourri, jams and jellies.	3' to 4' tall x wide	Low to Medium	Full Sun	Butterflies Hummingbirds
Salvia 'Bi-Color' <i>Salvia sinaloensis</i>	Compact, bushy Salvia with deep blue flowers with white on airy spikes. Foliage has a plum-purple hue.	6-10" tall x 15-18 wide	Low to Medium	Full Sun to Part Sun	Bees, Butterflies, Hummingbirds
Salvia 'Hot Lips' <i>Salvia macrophylla 'Hot Lips'</i>	Spikes of red lipped, pure white or solid red, tubular blooms are borne continuously from spring to fall on this durable drought and heat tolerant plant.	24-36" tall and wide	Low to Medium	Full Sun	Bees, Butterflies, Hummingbirds
Salvia 'Amethyst Lips' <i>Salvia 'Amethyst Lips'</i>	Spikes of two-lipped tubular bright white flowers are tipped with a broad band of amethyst, between violet and purple, at the tips of the petals. Flowers may be solid amethyst when the weather is cool but quickly revert to their two-toned splendor with a little sunshine.	24-36" tall and wide	Low to Medium	Full Sun to Part Sun	Bees, Butterflies, Hummingbirds
Skeleton Leaf Goldeneye <i>Viguiera stenoloba 'Goldeneye'</i>	A rounded plant with daisy-like flowers. Attracts butterflies and bees. Texas Native. Likes dry feet.	2' tall and wide	Medium	Full Sun	Bees, Butterflies
Skullcap – Purple <i>Scutellaria suffrutescens</i>	An herb in the mint family most often used as an edging plant or ground cover. A Texas native with purple blooms from spring to frost. Needs good drainage.	1' tall x 2' wide	Low to Medium	Full Sun	Bees, Butterflies
Standing Cypress <i>Ipomopsis rubra</i>	Showy, red tubular flowers marked with orange or yellowish spots. Flowers are arranged in a thick spike, opening from the tip downward. Use in borders, along fence lines, in meadows or in mass plantings.	2-5' tall and 1-2' wide	Low	Full Sun to Part Shade	Bees, Butterflies, Hummingbirds
Sundrops <i>Calylophus</i>	Blooms from spring to late fall with bright, yellow flowers that open at sunset and remain open for most of next day. Dormant in winter. Good for rock gardens or filler plants in mixed borders; likes heat and excellent drainage.	12" tall and 36" wide	Low	Full Sun	
Texas Betony <i>Stachys coccinea</i>	Blooms heaviest in early spring. Masses of bright red, tubular flowers attract hummingbirds.	2' tall and wide	Low to Medium	Full Sun	Bees Butterflies Hummingbirds
Verbena 'Georgia Red' <i>Verbena bonaerensis 'Georgia Red'</i>	Vigorous and heat tolerant. Masses of bright red blooms with strong trailing habit. Blooms till late fall.	6-12" tall x 36" wide	Low	Full Sun	Butterflies
Verbena 'Blue Princess' <i>Verbena x hybrida 'Blue Princess'</i>	This butterfly attracting, easy care perennial has masses of beautiful, lavender blue flowers. Resistant to powdery mildew. Shear between bloom cycles to promote rebloom.	12" tall x 36" wide	Low	Full Sun	Butterflies

The CCMGA 2022 Spring Plant List *(Subject to grower availability.)*

Ornamental Perennials	Description	Size	Water	Light	Attracts Pollinators
Botanical Name					
Verbena 'Homestead Purple' <i>Verbena canadensis 'Homestead Purple'</i>	Known for its long bloom season and rapid growth. Flowers are bright purple blooms; leaves are deep green, scalloped, coarse-textured. Good used as a border or in rock gardens.	12-18" tall x 36" wide	Low	Full Sun	Butterflies
Verbena 'Homestead Red' <i>Verbena canadensis 'Homestead Red'</i>	Exceptionally long blooming season, this colorful, hardy selection produces loads of bright red flowers till first frost. Ground hugging foliage spreads to form a colorful, butterfly-attracting mass.	12-18" tall and 36" wide	Low	Full Sun	Butterflies
Verbena 'Perfect Pink' <i>Verbena x hybrida 'Perfect Pink'</i>	Low growing and is perfect for filling any barren area in your landscape with a unique carpet of pink color! Heat and drought tolerant once established.	6-12" tall and 24-36" wide	Low	Full Sun to Part Sun	Butterflies
Wooly Stemodia <i>Stemodia lanata</i>	A silver-white or grayish plant that is grown for its foliage. Blooms with tiny lavender or white flower best appreciated at close range. Attractive groundcover trailing over a pot or wall. Drought tolerant.	10" tall x 36" wide	Low to Medium	Full Sun to Part Sun	
Yarrow 'Moonshine' <i>Achillea 'Moonshine'</i>	Upright, clump forming compact yarrow noted for its fern-like aromatic, silvery to gray-green foliage and its tiny, long-lasting, bright lemon-yellow flowers. Deadhead to promote additional bloom.	1-2' Tall x 12" wide	Low to Medium	Full Sun	Bees, Butterflies
Yarrow 'Paprika' <i>Achillea 'Paprika'</i>	Sprays of crimson red blooms with yellow centers over aromatic, fern-like foliage. Long lasting flowers fade to a dusty rose color over the season. Pollinator friendly.	18-24" tall and wide	Low to Medium	Full Sun	Bees, Butterflies
Yarrow 'Pastel Pink' <i>Achillea sibirica 'Pastel Pink'</i>	Upright Plant with blooms from June thru late summer. Remove faded flowers to encourage more growth and divide every 3-4 year. Attracts butterflies; deer resistant.	12-15" tall and 10-15" wide	Low to Medium	Full Sun	Bees, Butterflies
Yarrow 'White'	Yarrow grows quickly and easily and comes back year after year. Heat and drought tolerant. Great in a pot or borders or fresh or dried flower arrangement; fragrant.	24" tall x 18" wide	Low to Medium	Full Sun to Part Sun	Bees, Butterflies

The CCMGA 2022 Spring Plant List *(Subject to grower availability.)*

Milkweeds	Description	Size	Water	Light	Attracts Pollinators
Botanical Name					
Milkweed 'Antelope Horns' <i>Asclepias Asperula 'Antelope Horns'</i>	Clump-forming, 1-2 ft. perennial has an upright habit. The long, thick, narrow leaves are often folded lengthwise. As the green seed follicles grow in length and begin to curve, they are said to resemble antelope horns. Milkweed species are the food source for Monarch butterfly caterpillars.	12-24" tall x 2-3'	Low to Medium	Full Sun	Bees, Butterflies and Hummingbirds
Milkweed 'Green' <i>Asclepias viridis 'Green'</i>	Native plant with wavy leaf margins and white flowers. Host plant for Monarch butterflies. Heat, cold and drought tolerant. Parts of the plant have some toxicity.	4' tall x 2- 3' wide	Low to Medium	Full Sun	Bees, Butterflies and Hummingbirds
Milkweed 'Pink Swamp' <i>Asclepias incarnate 'Pink Swamp'</i>	Blooms come in shades of soft mauve to pink to reddish-violet or occasionally white. Critical host plant for Monarch butterflies. Sturdy, upright clumps grow on stems 4-5 ft tall	4-5' tall and 2- 3'wide	Medium	Full Sun	Bees, Butterflies and Hummingbirds
Ferns	Description	Size	Water	Light	Attracts Pollinators
Botanical Name					
Fern: Autumn Brilliance <i>Dryopteris erythrosora</i>	Arching evergreen fern that grows in a vase-shaped clump. New fronds unfurl in striking shades of orange-red to copper before eventually turning deep green.	2' tall x 2- 3' wide	Medium	Full Shade	
Fern – Foxtail <i>Asparagus densiflorus</i>	Foxtail fern boasts luscious, fluffy stems of pine needle-like leaves, giving it a plush appearance. A member of the asparagus family, the foxtail fern is actually not a fern at all, as the plant uses seeds to reproduce, not spores. The feathery plant yields small white flowers that produce eye-catching red berries, a plus for the birds.	2-3' tall and wide	Medium	Part Sun to Part Shade	
Fern – Kimberly Queen <i>Nephrolepis obliterated</i>	These ferns make a bold statement. Their dynamic and graceful leaves fill any space with gorgeous, natural color. Kimberly Queen Ferns are easy-to-grow and thrive outdoors or as a houseplant.	2-3' tall x 3-4' wide	Medium	Part Sun to Part Shade	
Fern – Korean Rock Fern <i>Polystichum tsus-simense</i>	Excellent small-scale fern. Lush dark green foliage in a dense mounding habit. Plant under shade trees and large shrubs to cover exposed soil. Works well with smaller woodland perennials and in containers. Herbaceous.	12" tall and wide	Medium	Part Shade to Full Shade	
Fern – Southern Wood Fern <i>Thelypteris normalis</i>	Light green upright fronds spread to form a dense colony with an elegant, open, fountain shape that adds excellent form and texture as a foundation planting and under shade trees. Naturalizes well with other understory natives in wild gardens. Deciduous.	3' tall and wide	Medium	Part Shade to Full Shade	

The CCMGA 2022 Spring Plant List *(Subject to grower availability.)*

Vines / Groundcovers	Description	Size	Water	Light	Attracts Pollinators
Botanical Name Green Santolina - Groundcover <i>Santolina virens</i>	Tidy, neat mound with attractive, bright green, fragrant foliage and a showy display of gold button flowers on wiry stems. Use as an effective groundcover or edging for walks or borders. Good foreground for an herb garden. Heat and drought tolerant. Evergreen.	2' tall and wide	Low	Full Sun	
Moneywort Creeping Jenny - Groundcover <i>Lysimachia nummularia</i> 'Creeping Jenny'	Low-growing, creeping ground cover which forms a leafy mat only 2-4" tall. Roots where leaf nodes come in contact with the soil. Thrives in damp soils, slightly ruffled, leaves with profuse, cup-shaped, bright yellow flowers in early summer. Tolerates limited foot traffic.	6" tall x 12" wide	Low to Medium	Sun to Part Shade	
Crossvine 'Tangerine Beauty' - Vine <i>Bignonia capreolata</i>	Native semi-evergreen perennial vine. A fast grower that becomes covered in showy red tubular flowers that measure up to 2" long thru summer. Flowers on old wood.	Up to 50' long	Medium	Full Sun	Bees, Hummingbirds
Morning Glory perennial – Vine <i>Ipomoea tricolor</i>	Strong climbers have beautifully shaped blooms that unfurl in the sun. Deep tap roots to ensure overwintering. Grow over an arch, trellis or as groundcover	Up to 10-15' long	Low to Medium	Full Sun	Bees, Butterflies, Hummingbirds
Passionflower - Vine <i>Passiflora incarnata</i>	Vigorous climber attracts a host of nectar feeders, including hummingbirds, butterflies, bees. Foliage can play nursery to a menagerie of butterfly caterpillars.	Up to 25' long	Medium	Full Sun	
Honeysuckle 'Coral' <i>Lonicera sempervirens</i>	Bring on the hummingbirds - a blanket of tubular, reddish orange flowers. Red berries attract birds, plants are non-invasive and bloom on previous year's growth. Once flowering is past can be pruned to shape. A trellis, fence or post with wire grid is good for support.	3-8' tall x 1-10' long			
Grasses	Description	Size	Water	Light	Attracts Pollinators
Botanical Name 'Ogon' Sweet Flag <i>Acorus gramineus</i>	Perfect for containers, borders and beds – does not go dormant; great at edge of ponds or as a container or accent.	6-14" tall x 12-14" wide	Medium	Part Sun to Sun	
Carex 'Evergold' <i>Carex oshimensis</i> EverColor® 'Evergold'	Fine, arching grass-like foliage adds great texture and color to moist, shady areas. Butter-yellow-striped leaves with dark green-edges remain attractive throughout the season. Forms a low tufted mound, perfect at pond's edge, in dappled shade borders or as a container accent.	10-16"t x 18-24" wide	Low to medium	Part Shade-Full Shade or Filtered Shade	
Carex 'Feather Falls' <i>Carex oshimensis</i> 'Feather Falls'	Tolerates full sun without burning and forms a super-sized, cascading clump of white and green variegated leaves, highlighted with beautiful plumes of feathery flower stems that emerge in spring. A choice plant for edging, or in the rock garden.	12-18" tall and 18-24"wide	Low	Full Sun to Part Shade	

The CCMGA 2022 Spring Plant List *(Subject to grower availability.)*

Grasses	Description	Size	Water	Light	Attracts Pollinators
Botanical Name Flax Lily <i>Dianella var.</i>	Handsome, strappy, green leaves with contrasting yellow stripes will brighten the garden year-round. Stalks of shiny, turquoise blue, ornamental berries persist from fall into winter to create a colorful accent. Its tidy clumping habit is ideal for mass planting near pools, in garden beds and in borders.	42" tall x 12" wide		Full Shade to Part Shade	
Gulf Muhly <i>Muhlenbergia capillaris</i>	Known as "Pink" Muhly Grass, spikelets are purple but, in the fall, the plant takes on a stunning, feathery, deep pink hue. Adds texture, movement and mass to the landscape.	1.5' Tall x 3' wide	Low	Full Sun	Butterflies, Birds
Mexican Feather Grass <i>Nassella tenuissima</i>	Beautiful grown in masses, this is a candidate for rock gardens, dry streambeds and next to landscape borders. Grow as a single accent or in a small cluster among other drought- and heat- resistant perennials for unique color and texture variation.	12-24" tall and wide	Low	Full Sun	
Purple Fountain Grass <i>Pennisetum setaceum 'Rubrum'</i>	Popular drought tolerant grass that forms a tidy, dense clump of purplish maroon blades topped with rose-red plumes. Beautiful as a landscape specimen or planted in groups. Unlike the species, this cultivar does not reseed.	2-4' tall x 2-3' wide	Low	Full Sun	
Annuals	Description	Size	Water	Light	Attracts Pollinators
Botanical Name Ageratum 'Artist Blue' <i>Ageratum houstonianum 'Artist Blue'</i>	"Flossflower" - Great growth habit and produces mounds of soft blue or deep violet-purple flowers summer till frost. Excellent in pots or landscape.	8-12" tall x 10-12" wide	Medium	Full Sun to Part Shade	Butterflies, Bees
Althernanthera 'Brazilian Red Hots' <i>Althernanthera dentata 'Brazilian Red Hots'</i>	Hot Pink and Fuchsia foliage. Unique and east to grow; distinctive color & texture for sun and shade. Heat tolerant. Texas Superstar Plant	24-36" tall x 12-18" wide	Medium	Full Sun to Part Shade	
Althernanthera 'Purple Prince' <i>Althernanthera 'Purple Prince'</i>	Ravishing, splashy, colorful foliage. 'Purple Prince' rolls out a magic carpet of burgundy-purple leaves complemented by ruby rose undersides.	10-16" tall x 16-20" wide	Low	Full Sun	
Angelonia 'Serenita'	A splash of impressionist color on a compact plant. Prolific and nearly indestructible in heat and humidity. Perfect for border or container. Colors: Raspberry, Purple, White	10-12"t x 12-16" wide	Medium	Full Sun	Butterflies, Hummingbirds
Begonia 'Dragonwing' Red <i>Begonia x hybrida</i>	Annual with lush, attractive angel-wing shaped, shiny dark green foliage and clusters of scarlet red flowers. Tolerant to hot and humid weather. Great in borders or containers.	15-18" tall and wide	Medium	Part Sun to Part Shade	Hummingbirds
Begonia 'Whopper Red' bronze leaf	Perfect for hanging baskets or T planters. Profuse double blooms dangle from weeping stems that look almost upside down. Heat tolerant, but needs semi-shade in hottest weather.	8-12" tall and 8-12" wide	Medium	Part Sun to Park Shade	

The CCMGA 2022 Spring Plant List *(Subject to grower availability.)*

Annuals Botanical Name	Description	Size	Water	Light	Attracts Pollinators
Begonia 'Whopper Pink' green leaf	Perfect for hanging baskets or T planters. Profuse double blooms dangle from weeping stems that look almost upside down. Heat tolerant, but needs semi-shade in hottest weather.	8-12" tall and 8-12" wide	Medium	Part Sun to Part Shade	
Caladium Fancy Leaf 'Carolyn Whorton' <i>Caladium 'Carolyn Whorton'</i>	Large, heart-shaped leaves with red veining and dark green margins. Ideal choice to brighten borders or containers.	18-24" tall and wide	Medium	Part Shade to Shade	
Caladium Fancy Leaf 'White Christmas' <i>Caladium 'White Christmas'</i>	Great shade garden plant / leaves more beautiful than flowers. Plant them in the garden, hanging baskets, pots, barrels, or tubs.	12-24" tall and wide	Medium	Part Shade to Shade	
Caladium Strap Leaf 'Peppermint' <i>Caladium Strap Leaf 'Peppermint'</i>	Delightful candy cane striped leaves bordered in green that are cool and refreshing on even the hottest summer days. Versatile, sun tolerant variety grows up to 18 inches tall and boasts exquisite texture and form that remains beautiful from summer into fall.	12-14" tall and 10-12" wide	Medium	Part Sun to Full Sun	
Caladium Strap 'Sangria' <i>Caladium Strap Leaf 'Sangria'</i>	Strap leaf variety with a rich rose red color. Sangria caladiums are intermediate in height and can tolerate part to full sun. Great for garden beds, baskets and mixed containers.	18-24" tall and wide	Medium	Part Sun to Full Sun	
Cape Plumbago-Blue Plumbago Hardy <i>Ceratostigma plumbaginoides</i>	A vigorous groundcover that thrives both in full sun with lots of blooms and partial shade with fewer blooms, small green leaves on wiry stems. Show-stopping blue blooms.	14-16" tall and wide	Medium	Full Sun to Part Shade	Butterflies
Celosia 'Intenz' <i>Celosia argentea 'Intenz'</i>	Easy to grow plant which produces bold flower spikes that bloom throughout summer and fall. Humidity tolerant and attracts pollinators.	1-2'tall x 6-12" wide	Medium	Part Sun to Full Sun	Butterflies, Bees
Coleus 'Alabama' <i>Coleus scutellarioides 'Alabama'</i>	Lovely plant grown for its interesting foliage colors of pink, red, bronzer, yellow, maroon, green and chartreuse. Makes a striking contrast in the flower border or in containers.	24" tall x 24" wide	Medium	Part Sun to Part Shade	
Coleus 'Burgundy Bridal Train' <i>Coleus scutellarioides x hybridus 'Burgundy Bridal Train'</i>	Burgundy leaves with lime green edges. Compact plant great for containers, borders and mass plantings. Low maintenance plant.	1-2'tall x 12-15" wide	Medium	Part Sun to Part Shade	
Coleus Flamethrower™ Salsa Verde <i>Coleus scutellarioides 'Flamethrower Salsa Verde'</i>	Mounding or spreading displays of bright lime green foliage. Performs in spring weather and in the heat of summer. Bold accent for borders, beds, window boxes and containers. Uniquely shaped leaves add texture.	18" tall x 18-24" wide	Medium	Part Sun to Part Shade	

The CCMGA 2022 Spring Plant List *(Subject to grower availability.)*

Annuals Botanical Name	Description	Size	Water	Light	Attracts Pollinators
Coleus Flamethrower™ Chili Pepper <i>Coleus scutellarioides 'Flamethrower Salsa Verde'</i>	Low maintenance, high impact plant is perfect for pots, landscaping and baskets. Bold foliage and compact habit set off the striking colors and the uniquely shaped leaves add texture and contrast.	12-18" tall x 12-18" wide	Medium	Part Sun to Part Shade	
Coleus Main Street™ Ruby Road <i>Coleus scutellarioides 'Main Street™ Ruby Road'</i>	Bright scarlet red centers give way to deep burgundy and finishing with a pleasing Kelly-green edge! Upright coleus great for beds, baskets or containers. Performs best with moist soil.	18-24" tall x 18-24" wide	Medium	Part Shade to Part Sun	
Coleus Main Street™ Beale Street <i>Coleus scutellarioides 'Main Street™ Beale Street'</i>	Deep red foliage that holds its color extremely well in the garden. Lush, bushy plant grows uniformly. Can be successfully grown from full sun to full shade. Beautiful color and uniform height. An AAS winner.		Medium	Full Sun to Full Shade	
Coleus 'Wizard Mosaic' <i>Coleus scutellarioides 'Wizard Mosaic'</i>	Mounded, upright plant with colorful, attractive foliage. Heat and shade tolerant; low maintenance. Adds interest to shade garden beds, containers, borders and baskets.	12-14" tall x 16" wide	Medium	Shade	
Crossandra 'Orange Marmalade' <i>Crossandra infundibuliformis 'Orange Marmalade'</i>	Long lasting blooms on a plant that thrives with heat and humidity. Large clusters of frilly, bright orange flowers shine against glossy green foliage, outstanding disease and insect resistance. Beautiful in beds, borders or containers.	18-24" tall x 18-2" wide	Medium	Part Shade to Part Sun	Bees
Cuphea 'Bat Face' <i>Cuphea ilavea 'Bat Face'</i>	Masses of unique flowers shower this colorful shrub over a long season. Named for its resemblance to a bat: the dark purple flower is the face and the red lobes are the ears. Thrives in heat, tolerates drought and attracts hummingbirds, bees, butterflies.	1-2' Tall and wide	Medium	Full Sun to Part Sun	Bees, Butterflies
Cuphea 'Allyson' Mexican Heather <i>Cuphea hyssopifolia 'Allyson'</i>	Multi-stemmed annual with an upright spreading growth habit which blooms a plethora of petite rose-purple flowers from spring to the first hard frost. Grows and blooms in full sun, but late afternoon summer shade is preferred; does not like wet feet.	12-18" tall x 16-18" wide	Medium	Full Sun to Part Shade	Bees, Butterflies
Dichondra 'Silver Falls' <i>Dichondra argentea 'Silver Falls'</i>	Native Texas unique, trailing accent plant for containers and hanging baskets. Small rounded leaves on trailing stems. Heat and drought tolerant.	2" tall and trailing to 4' long	Medium	Full Sun	
Duranta 'Sapphire Showers' <i>Duranta erecta 'Sapphire Showers'</i>	Light blue, violet and white flowers give the plant its Sapphire Showers name. The leaves are dark green on multi-stemmed branches. Best as a large shrub in the landscape – can be used as a container plant.	Up to 20' tall x 8-12' wide	Medium	Full sun	Bees, Butterflies
Duranta 'Gold Mound' <i>Duranta erecta 'Gold Mound'</i>	Bright gold new foliage that eventually matures to green; pretty lavender flowers in summer are followed by yellow-orange berries. May be shaped into low hedges. A great garden or landscape accent.	5'tall and wide	Medium	Full Sun	Bees, Butterflies

The CCMGA 2022 Spring Plant List *(Subject to grower availability.)*

Annuals	Description	Size	Water	Light	Attracts Pollinators
Botanical Name					
Esperanza 'Oompa Loopa' Orange <i>Tecoma 'Oompa Loopa Orange'</i>	Related to trumpet vine but grows like a bush – a well-branched compact habit. Thrives in heat with spectacular blooms. Great for large containers, patio or gardens	4' tall x 4-5' wide	Medium	Full Sun	Bees. Butterflies
Evolvulus 'Blue Daze' <i>Evolvulus glomeratus</i>	Planted in a sunny spot, this plant smothers itself with a nonstop wave of ocean-blue flowers on blue-green foliage. Great as a groundcover or in containers.	12-16" tall and wide	Low	Full Sun	
Geraniums 'Maverick'™ Series multiple colors <i>Pelargonium × hortorum 'Maverick'™</i>	Heat tolerant and compact, well-branched, large-flowered, with bright green stems. Multiple colors of Scarlet, Rose, Violet and Coral.	14-16" tall x 12-14" wide	Medium	Full Sun to Part Sun	
Golden Groundsel <i>Packera obovate</i>	Long, profuse bloom of bright yellow flowers. Semi-evergreen foliage forms attractive ground cover. Thrives in shady locations. Naturalizes rapidly	12-18" tall x 12" wide	Medium	Part Sun to Part Shade	Butterflies
Golden Shrimp Plant <i>Pachystachys lutea</i>	Showy spikes of white tubular flowers with gold bracts rising above the foliage from mid spring to mid summer. Its glossy oval leaves emerge light green in spring, turning dark green in color with distinctive light green veins the rest of the year.	3' tall x 3' wide	Medium	Part Shade to Full Sun	
Gomphrena globosa 'QIS Carmine' <i>Gomphrena haageana 'QIS Carmine'</i>	Best rose-colored Gomphrena for cut flowers with glowing 1 ½" carmine blooms on long stems. Low maintenance, drought-tolerant.	14-16" tall x 14-16" wide	Medium	Full Sun	Bees, Butterflies
Gomphrena globosa 'Ping Pong Purple' <i>Gomphrena globosa 'Ping Pong Purple'</i>	Small, ball-shaped bloom in eye-catching purple. Low maintenance, drought-tolerant. Terrific cut flower or great for drying	16-20" tall x 8-10" wide	Medium	Full Sun	Bees, Butterflies
Gomphrena globosa "Purple Gnome" <i>Gomphrena globosa "Purple Gnome"</i>	Gnome Purple is a shorter variety of gomphrena than the Ping Pong series. Plant along the edge of your flower beds or use in mixed containers. Drought tolerant and low maintenance; a great choice for any gardener to try.	4-6" tall x 6-12" wide	Medium	Full Sun	Bees, Butterflies
Gomphrena globosa 'Fireworks' <i>Gomphrena globosa 'Fireworks'</i>	Unique tufts of long-lasting, intense hot iridescent pink flowers tipped with bright yellow on very long stems. Low maintenance is a show stopper. Great as cut or dried flower.	24-36" tall and wide	Medium	Full Sun	Bees, Butterflies
Gomphrena globosa 'Audray Rose Bi-Color' <i>Gomphrena globosa 'Audray Rose Bi-Color'</i>	Excellent for both garden and cut flower use; rounded violet-rose flowers with white centers appear in summer and bloom into fall; extremely tough, enduring hot, humid, and wet conditions; great for sunny borders and containers. Drought tolerant.	16-24" tall x 12" wide	Medium	Full Sun	Bees, Butterflies
Gomphrena globosa 'Strawberry Fields' <i>Gomphrena globosa 'Strawberry Fields'</i>	Best red gomphrena for cut flowers. Brilliant flowers, 1 1/2" across, atop strong stems. Holds color exceptionally well when dried.	18-28" tall x	Medium	Full Sun	Bees, Butterflies

The CCMGA 2022 Spring Plant List *(Subject to grower availability.)*

Annuals Botanical Name	Description	Size	Water	Light	Attracts Pollinators
Hamelia patens Firebush <i>Hamelia patens</i>	Long blooming, easy care, tropical bedding plant with showy red-orange, tubular flowers. Loves heat and blooms non-stop until frost. In fall, leaves turn a deep red- a Texas Superstar plant.	10-12' tall x 12-18" wide	Low	Full Sun	Butterflies, Hummingbirds
Impatiens 'Dazzler Mix' <i>Impatiens walleriana 'Dazzler Mix'</i>	This series fills in quickly and is covered with masses of 1.5-inch blooms on rich, green foliage. All the colors come into bloom together and flower freely right up until frost.	10-14" tall x 8-12" wide	Medium	Part Shade to Part Sun	
Lantana 'Confetti'™ Spreading <i>Lantana 'Confetti'</i>	Masses of pink, yellow and magenta flowers! Beautiful spreading habit, useful in natural form to brighten flower beds, mass as a ground cover, or use as a low hedge. Perfect for accenting borders or displaying in containers. Tolerates heat and drought, when established in the landscape.	2-3' tall x 6-8' wide	Low	Full Sun to Part Shade	Bees, Butterflies, Hummingbirds
Lantana 'Irene' <i>Lantana camara 'Irene'</i>	Drought Tolerant. Prolific yellow flowers deepen to hot pink, fuchsia and red and appear continuously with minimal care. Low maintenance with rough, dark green leaves. Mounding habit for landscape, beds and containers.	2' tall x 4' wide	Low	Full Sun to Part Shade	Butterflies, Hummingbirds
Lantana 'Purple Trailing' <i>Lantana montevidensis "Purple Trailing"</i>	Clusters of purple flowers are borne from spring to frost on this easy. With a low, naturally spreading to weeping habit makes an excellent 'spiller' in containers.	1-2' tall x 4-6' wide	Medium	Full Sun	Butterflies and Birds
Marigold African Joy Yellow <i>Marigold 'African Joy' Yellow</i>	Pops of huge, 3-4-inch double blooms of sunny yellow on well-branched plants. Flowers continuously all season long.	24-32" tall x 14-16" wide	Medium	Full Sun	Bees, Butterflies and Birds
Marigold 'Bonanza' <i>Marigold 'Bonanza'Orange</i>	Double crested flowers are the largest of any in this type. Intense colors. Excellent garden performer under a wide range of conditions.	10-12" tall x 6-8" wide	Medium	Full Sun	Bees, Butterflies and Birds
Marigold 'Fireball' <i>Marigold 'Fireball'</i>	Fireball is a blaze of color over many months, its big double blooms opening a rich shade of red and then maturing to orange, bronze, and gold.	10-12" tall x 6-8" wide	Medium	Full Sun	Bees, Butterflies and Birds
Moss Rose 'Sundial Mix' <i>Portulaca grandiflora</i>	Tough and adaptable little succulent that blooms summer to frost in colors including red, rose, orange, yellow, white and pastel shades.	6-8" tall x 12" wide	Low	Full Sun	
Petunia 'Easy Wave' Spring Mix colors <i>Petunia x hybrida 'Easy Wave'</i>	Low growing, spreading petunia only reaches heights of 6 - 12 inches; however, it spreads 30 - 39 inches! Its beautiful 2-inch flowing blooms of rich burgundy, white, and violet shades will flourish from Spring-late Summer.	6-12" tall x 30-36" wide	Medium	Full Sun to Part Sun	

The CCMGA 2022 Spring Plant List *(Subject to grower availability.)*

Ornamental Peppers	Description	Size	Water	Light	Attracts Pollinators
Botanical Name					
Sweet Potato 'Margarita' <i>Ipomoea batatas 'Margarita'</i>	Vibrant chartreuse foliage leans to gold in the sun, pale green in partial shade. Heart-shaped leaves cover this vigorous grower. Great in containers, typically grown as a summer annual.	6-12' long	Medium	Full Sun or Part Sun	
Sweet Potato 'Ace of Spades' <i>Ipomoea batatas 'Ace of Spades'</i>	Very dark leaves on a fast-growing vine making this plant great in a combination pot or window boxes. It is very easy to grow.	6-12' long	Medium	Full Sun or Part Sun	
Sweet Potato Vine 'Tri-color' <i>Ipomoea batatas 'Tri-Color'</i>	Wonderful tricolored leaves on trailing growth. Heat tolerant and makes a great annual groundcover or container or hanging basket.	4-8" tall x 72" long	Medium	Full Sun or Part Sun	
'Black Pearl' <i>Capsicum Annuum 'Black Pearl'</i>	Noted for its glossy black foliage and black-maturing-to-red fruit. Upright bushy growth with small purple flowers in summer followed by round, pearl-like fruit. Peppers are technically edible, but extremely hot.	14" tall x 10-12" wide	Medium	Full Sun	
'Sangria' <i>Capsicum Annuum 'Sangria'</i>	Multiple colored, bright upturned peppers on dense foliage. Great for containers. Produces all summer, heat and drought tolerant. Mildly hot (1,000-2,000 Scoville heat units).	6-12" tall x 12-18" wide	Medium	Full Sun	
'Onyx Red' <i>Capsicum Annuum 'Onyx Red'</i>	Compact, well-branched ornamental pepper adorned with eye-catching dark black foliage. The contrast between the diminutive black foliage and tons of shiny red fruits is striking and makes a bold statement in the garden. Vigorous, continually growing but retains compact habit. Great for beds, containers, borders.	6-12" tall and wide	Low to Medium	Full Sun	Birds
'Chile Petin' <i>Capsicum annuum 'v. aviculare'</i>	Tiny, round red peppers cover this plant in the summer. Fruit is edible, but extremely hot. Native Texas plant, will re-seed itself. Good looking in mass plantings.	36" tall x 24" wide	Low to Medium	Full to Part Sun	Birds
Pentas	Description	Size	Water	Light	Attracts Pollinators
Botanical Name					
'Butterfly Deep Pink' <i>Pentas lanceolata 'Butterfly Deep Pink'</i>	Large deep pink flowers, drought and heat tolerant. Good companion or in borders or containers.	10-15" tall x 10-18" wide	Medium	Full Sun	Butterflies, Bees, Hummingbirds
Butterfly White <i>Pentas lanceolata</i>	White clusters of star-shaped blooms cover compact emerald foliage. Heat and drought tolerant. Good companion plant or in borders or containers.	18-24" tall x 10-18" wide	Medium	Full Sun	Butterflies, Bees, Hummingbirds
Butterfly Red Lace' <i>Pentas lanceolata 'Red Lace'</i>	Deep red clusters of star-shaped blooms cover compact emerald foliage. Heat and drought tolerant. Good companion plant or in borders or containers.	12-15" tall x 10-12" wide	Medium	Full Sun	Butterflies, Bees, Hummingbirds

The CCMGA 2022 Spring Plant List *(Subject to grower availability.)*

'Butterfly Violet' <i>Pentas lanceolata</i>	Violet clusters of star-shaped blooms cover compact emerald foliage. Heat and drought tolerant. Good companion plant or in borders or containers.	18-24" tall x 10-18" wide	Medium	Full Sun	Butterflies, Bees
Pentas 'Graffiti Mix' <i>Pentas lanceolata 'Graffiti Mix'</i>	Compact annual with shiny attractive dark green leaves that contrast to bright large clusters of star-shaped flowers in pink, purple, bright red, rose and white.	10-12" tall x 10-12" wide	Medium	Full Sun	Butterflies, Bees, Hummingbirds
Perilla 'Magilla' <i>Perilla 'Magilla'</i>	Showy, multi-colored magenta-red, deep plum, green and cream leaves with white nettle-like flowers. Group or mass in beds and borders, pots, containers or hanging baskets. Will grow part shade, but best color in full sun.	2-3' tall x 2-3' wide	Medium	Full Sun	
Persian Shield <i>Strobilanthes dyerianus</i>	Colorful leaves with violet blooms. Use as bedding plant, in containers or as houseplant. Pinch stems as needed to avoid legginess. Foliage color is best in part shade	1-2' Tall x 2-3' wide	Medium	Part Shade to Part Sun	
Salvia coccinea Botanical Name	Description	Size	Water	Light	Attracts Pollinators
Salvia 'Scarlet Lady in Red' <i>Salvia coccinea 'Scarlet Lady in Red'</i>	Excellent in the AAS trials and will serve well as both a bedding plant or potted plant. Early blooming and naturally compact makes it a good choice.	24-36" tall x 18-24" wide	Medium	Full Sun to Part Sun	Bees, Butterflies, Hummingbirds
Salvia 'Snow Nymph' <i>Salvia coccinea 'Snow Nymph'</i>	Graceful and delicate appearing, self-seeding annual. It produces well formed, densely leaved, plants that feature vertical spike flower clusters of whorling, tube-shaped, coral blossoms atop sturdy, tall spikes.	12-18" tall x 12-18" wide	Low to Medium	Full Sun to Part Sun	Bees, Butterflies, Hummingbirds
Vegetables Botanical Name	Description	Size	Water	Light	Attracts Pollinators
Sweet Pepper 'Big Bertha' <i>Capsicum annuum 'Big Bertha'</i>	Thick-walled, 7-inch-long fruit ripen to red. Plants are disease resistant. Ideal for giant stuffed peppers. Stems get heavy – use support or tomato cage.	Up to 42" tall	Medium	Full Sun	
Jalapeno Pepper 'Mammoth' <i>Capsicum annuum 'Mammoth'</i>	Produces heavy yields of 4 ¾" long by 1 ¾" wide hot peppers. Peppers turn from medium dark green to red when mature. Great pickling variety.	24-36" tall x 18-24" wide	Medium	Full Sun	
Sweet Pepper 'Sweet Spot' <i>Capsicum annuum 'Sweet Spot'</i>	Delightfully tangy and colorful sweet pepper. Elongated, thick-walled pepper turns scarlet when fully ripe, but will stay sweet and mild. Grows best in full sun and well-drained soil and can be harvested when yellow or fully ripe. Great for canning or eaten fresh.	18-24" tall and wide	Medium	Full Sun	
Tomato 'Fourth of July' <i>Lycopersicon lycopersicum 'Fourth of July'</i>	So named because it can produce ripe fruit by July 4 in a typical climate. Disease resistant; great taste; long bearing	4' tall and wide	Medium	Full Sun	
Tomato 'Celebrity' <i>Solanum lycopersicum 'Celebrity'</i>	Produces long fruit-bearing stems holding 20 or more very plump, robust tomatoes. Plants need caging or staking and produce fruit throughout the growing season.	24-48" tall and wide	Medium	Full Sun	

The CCMGA 2022 Spring Plant List *(Subject to grower availability.)*

Vegetables		Description	Size	Water	Light	Attracts Pollinators
Botanical Name						
Tomato 'Juliet' <i>Solanum lycopersicum 'Juliet'</i>		Great flavor, fresh or cooked. Deep red, shiny fruits, typically 12-18 fruits per cluster. Rich tomato flavor for salads, great salsa or fresh pasta sauce. Good crack resistance, vine storage and shelf life.	6-8' tall x 2-4' wide	Medium	Full Sun	
Tomato 'Better Boy' <i>Solanum lycopersicum 'Better Boy'</i>		Great slicing tomato. Grow it in a tall cage or tie to a stake for support. Resistant to verticillium wilt (V), fusarium wilt (F).	48" tall x 24-36" wide	Medium	Full Sun	
Tomato 'Super Sweet 100's' <i>Solanum lycopersicum 'Super Sweet 100s'</i>		Long, branched clusters of deliciously sweet tomatoes high in sugar and vitamin C. Disease resistant. You'll be eating them right off the vine before they ever make it to the salad bowl! Indeterminate vines continue bearing until frost. Need supports or cage.	48" tall x 24-36 wide	Medium	Full Sun	
Tomato 'Yellow Pear' <i>Lycopersicon esculentum 'Yellow Pear'</i>		Yellow Heirloom. Bite-size prized for snacking, salads. Produces a seemingly endless supply of mild-flavored, pear-shaped tomatoes grown in clusters.	6-7' tall x 12-18" wide	Medium	Full Sun	
Herbs		Description	Size	Water	Light	Attracts Pollinators
Botanical Name						
Basil 'Sweet Genovese' <i>Ocimum basilicum 'Sweet Genovese'</i>		A classic Italian basil. Large dark green leaves are tender with intense flavor, aromatic. Pick leaves at any point in the growing season.	16-18" tall x 12-16" wide	Medium	Full Sun	Bees, Butterflies, Hummingbirds
Basil, 'Cardinal Blooms' <i>Ocimum hybrid 'Cardinal Blooms'</i>		Grown for both its edible foliage and its decorative blooms. It is often used as an ornamental edge plant in gardens, imparting a spicy aroma and acting as a natural deterrent to pests.	14-20" tall and 12-24" wide	Medium	Full Sun	
Dill, Fernleaf <i>Anethum graveolens</i>		An improved variety of ordinary dill that is more compact, forming a green mound of wispy foliage grown especially for its leaves rather than seed. Abundant, dark blue-green foliage.	18" tall x wide	Medium	Full Sun	
Dill, Bouquet <i>Anethum graveolens</i>		Feathery plant – leaves used in many dishes. Seeds used in pickling and vinegars. Seed directly in ground in cool season. Will bolt in warm weather	3' tall x 1' wide	Medium	Full Sun	
Eucalyptus 'Silver' <i>Eucalyptus cineria</i>		Striking addition to any landscape or large container, featuring rounded silver-gray leaves that are prized for live or dried arrangements. Aromatic and fast grower. Drought tolerant once established.	2-3' tall x 24" wide	Low to Medium	Full Sun to Part Sun	
Fennel, Bronze <i>Foeniculum vulgare</i>		Gorgeous reddish-bronze color. Vigorous and uniform strain is slow to bolt. Leaves are a nice addition to salads, coleslaws, and dressings. Leaves and stems should be harvested for fresh use before the plant begins to flower.	24-36" tall	Low to Medium	Full Sun	Butterflies

The CCMGA 2022 Spring Plant List *(Subject to grower availability.)*

Herbs Botanical Name	Description	Size	Water	Light	Attracts Pollinators
Lavender 'Provence' <i>Lavandula x intermedia</i>	Tolerant of poor soils and a true heat lover; it's even known to withstand heavy doses of summertime humidity. With exceptionally long, mauve-purple spikes of flowers that are complemented by its silver-green foliage, it's a beautiful sight when swaying in the breeze.	30-36" tall x 24-36" wide	Low	Full Sun	Bees, Butterflies
Lavender 'Fernleaf' <i>Lavandula minutolli</i>	Finely divided, fern-like gray-green foliage is topped by tall spikes of small fragrant, bright lavender-blue flowers. A sturdy, reliable garden performer in borders, rock gardens and containers.	24" tall x 36" wide	Low	Full Sun	Bees, Butterflies
Lemon Verbena <i>Aloysia a. citrodora</i>	Semi-evergreen small shrub prized for its lemon-scented leaves, which add fragrance to the entire garden and flavor to teas and cold drinks. Small, pale lilac flowers in summer.	12-36" tall x 18" wide	Medium	Part Sun to Full Sun	
Mint, Peppermint <i>Mentha x piperita</i>	Amazingly aromatic herb is one of the oldest herbs used for ritual, culinary, and medicinal purposes. Today it is used for aesthetics, being cherished for its lovely refreshing fragrance and taste.	12-24" tall and wide	Medium	Full Sun	
Oregano, Italian <i>Origanum x majoricum</i>	Thrives with lower humidity and well-drained soil. Use this oregano as an edging plant. Harvest leaves or stems anytime during the growing season. Flavor is most intense just before plants flower. Trim plants often to keep flower formation at bay.	12-36" tall x 18-24" wide	Medium	Full Sun to Part Shade	
Oregano, Hot & Spicy	Fragrant round grayish green leaves which emerge chartreuse in spring are usually harvested from early to late summer. The leaves have a spicy taste.	18" tall x 20" wide	Medium	Full Sun	
Parsley, Italian <i>Petroselinum neapolitanum</i>	Used as an herb in a wide range of cuisines around the world. The slender stems give way to dark, flat leaves that taste robust and fresh. Also known as flat-leaf parsley, is sold on the stems but only the leaves are most commonly used in cooking, which can be added whole or chopped.				
Rosemary, Hardy <i>Rosmarinus officinalis 'Hardy'</i>	Narrow grayish needle-like foliage and pretty lavender-blue flowers in spring on an upright form; leaves are a mainstay for cooking and as garnish, wonderful to grow in a container. Does not like 'wet feet'. Consider a layer of mulch in winter to protect roots from harsh conditions.	4' tall x 3' wide	Low	Full Sun	Bees, Butterflies
Sage, Garden <i>Salvia officinalis 'Garden Sage'</i>	Lavender Blue flowers. Tolerates very light shade, but best in full sun. Wrinkled, gray-green leaves are strongly aromatic. Frequently used fresh or dried in cooking.	2' tall and wide	Medium	Full Sun	Butterflies

The CCMGA 2022 Spring Plant List *(Subject to grower availability.)*

Herbs	Description	Size	Water	Light	Attracts Pollinators
Botanical Name Stevia <i>Stevia rebaudiana</i> 'Stevia'	Grow 3 to 5 plants for a year's supply of dried leaves. Dried leaves are generally sweeter than fresh. Can be grown in beds or large containers.	1-2' tall and wide	Medium	Full Sun	
Tarragon, French <i>Artemisia dracuncululus</i> var. <i>sativa</i>	Loose, open plant with dark green, narrow, slightly twisted foliage. Occasionally produces small, greenish flowers. Leaves have licorice or anise flavor. Young stem tips and leaves can be harvested throughout the season. Fresh leaves are more flavorful than dried.	1-2' Tall x 3' wide	Medium	Full Sun to Part Shade	
Succulents	Description	Size	Water	Light	Attracts Pollinators
Botanical Name Blue Ghost Plant <i>Graptopetalum paraguayense</i>	Quite cold- hardy is a small evergreen succulent forming 4 in. wide rosettes of fleshy, pointed, flat, grayish white, opalescent leaves. The foliage warms up to pinkish yellow in hot, dry conditions and turns blue-gray in partial shade.	12" tall x 2-3' wide	Low	Full Sun to Part Sun	
Hardy Ice Plant 'Pink' <i>Delosperma cooperii</i>	Bright pink, vigorous, succulent, spreading ground cover. Use in rock gardens, border fronts or slopes or edges. Needs well-drained soil.	1-2' tall x 3" wide	Low	Full Sun	
Sedum 'Autumn Joy' <i>Sedum 'Autumn Joy'</i>	Drought resistant succulent with clumping foliage and plate-like clusters of flowers that bloom late summer to frost. Easy care and easy to propagate.	1-2' Tall x 3' wide	Low	Full Sun	Butterflies, Bees
Sedum 'Blue Spruce' <i>Sedum reflexum</i> 'Blue Spruce'	Low growing cultivar with bluish foliage and conifer-like leaves. Small yellow star-shaped flowers emerge in summer. Great in rock gardens or as edging.	Up to 1" tall x 12-18" wide	Low	Full Sun	
Sedum 'Lemon Ball' <i>Sedum x hybrida</i>	Vivid mounds of chartreuse foliage stay dense, bushy, and bright all summer. Drought and heat tolerant.	1-2" tall x 12" wide	Low	Full Sun	
Sedum 'Purple Emperor' <i>Sedum x hybrida</i> 'Purple Emperor'	Dusky pinkish-purple, drought resistant succulent with clumping foliage and plate-like clusters of flowers that bloom late summer to frost. Good in border fronts or rock gardens; best massed or in groups or containers.	18" tall and wide	Low	Full Sun	
Senecio 'Blue Chalk Fingers'	Small, low growing, spreading groundcover. Powdery blue-green fleshy leaves take on purple tints in extreme heat and sun exposure.	12" tall x 3' spread	Low	Full Sun	
Yucca 'Soapweed' <i>Yucca glauca</i> 'Soapweed'	Distinctive member of the agave family is an attractive clumping perennial with grayish-green leaves. During summer stalks line with creamy cup-shaped bloom rise 2-3 ft above the plant. Needs well-drained soil.	3-6'tall x 2-3' wide	Low	Full Sun	

The CCMGA 2022 Spring Plant List *(Subject to grower availability.)*

Succulents	Description	Size	Water	Light	Attracts Pollinators
Botanical Name					
Yucca, Red <i>Hesperaloe parviflora 'Red'</i>	Red Yucca (which is not actually a yucca) is, however, a stalwart in Texas landscapes. Dark green rosette of long, thin leaves. North Texas Top 100 plant	2' tall and wide	Low	Full Sun	Butterflies, Bees, Hummingbirds

Daylilies	Description	Size	Water	Light	Attracts Pollinators
Botanical Name					
Cabbage Flower <i>Hemerocallis</i>	Pastel Lemon-Yellow Self with Green Throat. Bloom Type: Double. Evergreen Re-Bloomer - Extended Bloom. Fragrant: No. Hybridizer: Kirchhoff-D., 1984. Bloom Season: Extra Early. Multiple AHS Award Winner.	Bloom size: 4.5" Height: 17"	Medium	Full Sun to Part Sun	
Charles Johnston <i>Hemerocallis</i>	Brilliant Red with Bright Yellow Throat. Semi-Evergreen. Re-Bloomer. Hybridizer: Gates 1981. Early Bloom Season. Multiple AHS Award Winner	Bloom 6" Height 24"	Medium	Sun to Part Sun	
Chinese Watercolor <i>Hemerocallis</i>	Raspberry Rose Blend with Gold Edge and Green Throat. Dormant. Re-blooms / Extended Bloom. Hybridizer: Stamile 1994. Early to Mid-Season Bloom Season. Multiple AHS Award Winner.	Bloom size: 6" Height: 17"	Medium	Full Sun to Part Sun	
Christmas Is <i>Hemerocallis</i>	Deep Christmas Red with Large Yellow & Green Throat. Dormant. Re-blooms; Hybridizer-Yancy 1979. Early to Mid-Season Bloom. Multiple AHS Award Winner	Bloom 4.5" Height: 26"	Medium	Full Sun to Part Sun	
Dark Angel <i>Hemerocallis</i>	Grape Purple w/ Blue Eye Zone and Green Throat. Evergreen. Re-bloomer: Hybridizer: Talbot 1989. Mid-Season Bloom	Bloom 4" Height 26"	Medium	Full Sun to Part Sun	
Double Ojai <i>Hemerocallis</i>	Black- Red Double w/ Yellow Orange Throat. Semi-Evergreen. Re-Bloomer: Hybridizer: Gould 1989. Mid-Season Bloom	Bloom 6" Height 32"	Medium	Full Sun to Part Sun	
Edge of Heaven <i>Hemerocallis</i>	Cream w/ Gold Pie Crust Edging and Green Throat. Semi-Evergreen; Re-Blooms; Hybridizer: Salter 1996; Mid-Season Bloom. Multiple AHS Award Winner	Bloom 6.5" Height 28"	Medium	Full Sun to Part Sun	
Eloise Pitkin <i>Hemerocallis</i>	Pink, Cream & White Blend w/ Large Light Green Throat. Dormant. Re-Bloomer. Hybridizer: K. Carpenter 1985. Mid-Season Bloom.	Bloom 4.5" Height 22"	Medium	Full Sun to Part Sun
